**Instruction Manual / Warranty**

**Congratulations!** You just received your new Soopl Fashion Trolley!

It all started with an idea that occurred while I was working as an account manager at a Fashion company visiting clients with products from the latest collection. Those Fashion trolleys we were using really did not work. This could be done a lot better. So I started to develop a new Fashion trolley and you are now the proud owner of the result!

The Soopl Fashion Trolley is a Fashion trolley that actually works. You can easily move it along bumpy pavements, off tricky curbs and through doorways. It is sturdy and easy to fold in and out.

As yet, there are no international norms for Fashion trolleys. In order to optimize the Soopl Fashion Trolley, Soopl developed the first, special Fashion trolley test together with TNO. This test (reference number 06.3815) has now become standard.

We would like to wish you lots of fun and success while working with the Soopl Fashion Trolley. Please do not forget to fill in and return the warranty form within two weeks after your purchase. You can fill in the form at the back of this booklet or obtain a copy from our website at [www.soopl.nl](http://www.soopl.nl).

Thank you!

Anjan Kaan
